

Signals From Satellites

Ric Tutlo-Bass

Phil Harrington-Drums

Rodney Smith-Guitar/Vocals

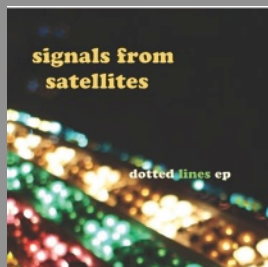

Signals From Satellites is a power trio from Tampa, FL that weaves dissonant guitar chords, melodic bass lines and dynamic drum beats together to form a tapestry of distorted noise and peaceful bliss while still finding room for the occasional “pop vocal hook”. Their music nods to their indie rock influences like Minus The Bear, Sonic Youth, Maritime and Firehose, but their sound has also been compared to Fugazi and Sunny Day Real Estate.

The band was formed in April '08 by guitarist/vocalist Rodney Smith and bassist, Ric Tutlo. Phil Harrington replaced their former drummer in November of that same year and they have been playing shows in the Tampa and St. Petersburg area ever since. Signals From Satellites recorded a 7-song demo this summer, “Dotted Lines E.P.”, which will officially be released as a download and CD in October, '09.

“Signals From Satellites is an excellent band that played a brilliant set.” “They know how to catch your attention, but they’re also very subtle.” “It was exemplary.” - Marc Ganancias, Orlando Punk and Indie Music Examiner, April 29th 2009

Venues: New World Brewery, The Orpheum, The Crowbar, Demmi’s Market on 7th, The Rare Olive, Neptune Lounge, The Hub, The Emerald Bar
